

ROTOTEC

SPINTEC

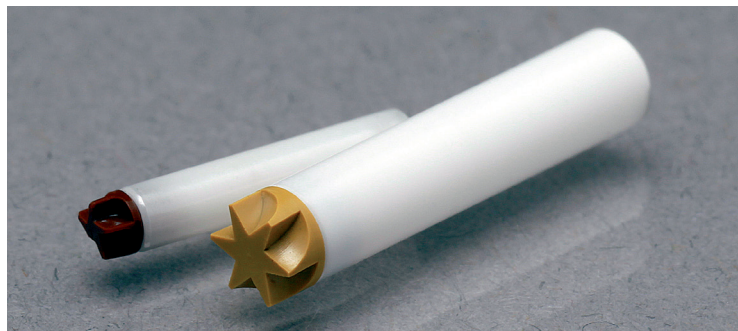

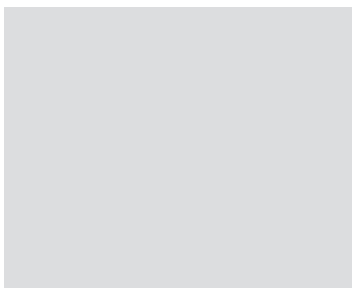

Rotors and Spinners
for
Liquids- and Solids-NMR
and Cap Remover

Rototec-Spintec has been successfully supplying the NMR, ESR / EPR, MRI spectroscopy industry worldwide since 1984 and produces many products for the various disciplines, including rotors & turbine caps for solids NMR and spinner turbines for high resolution liquids NMR.

A small selection is shown below. Besides our own products we also work closely with several manufacturers worldwide to develop partial or complete systems for spectroscopy, be it NMR, ESR / EPR or MRI.

Our latest new product is the world's first rotor turbine cap remover which grips both the cap.

All our spectroscopy products are protected by a single and simple patent number:
B•E•A•T•U•S•I•F•Y•O•U•C•A•N !
